Down, down, down. Would the fall never come to an end! ’I wonder how many miles I’ve fallen by this time?’ she said aloud. ’I must be getting somewhere near the centre of the earth. Let me see: that would be four thousand miles down, I think–’ (for, you see, Alice had learnt several things of this sort in her lessons in the schoolroom, and though this was not a very good opportunity for showing off her knowledge, as there was no one to listen to her.

Grumpy is loosely based on **ITC Grouch** by Tom Carnase. Design is slightly heavier than Grouch, and many glyphs differ notably from Grouch. It is a display typeface with very tight tracking, and more than 2000 kerning pairs for overall even colour.

 Letterspacing method is TNT (that is Tight, Not Touching); a very popular type treatment int the seventies and eighties.

 Grumpy has some stylistic alternate glyphs, for example # goes №, & goes & and 7 goes 7.
