

This manual is an overview of the content of the font Sugarbang! The font is built on a random baseline so letterforms “bounce” up and down adding to the “zany” look of the design. Sugarbang is a minimal font set which includes uppercase and lowercase letterforms. It is a headline font best used above 42 points in size. Please note its normal tight spacing and that cap “T” and cap “L” have been specially kerned to account for the overhang of certain other letterforms. See the last line below for examples. Thank you for purchasing Sugarbang! from [astroluxtype](#), just add milk and it’s sugar frosted font goodness.
