

CHANGES FROM 0.811 TO 0.813  
edited by Fabrizio Schiavi 2013-10

- \* vertically modified these glyphs:  
# @ = >  
in all the weights  
Now coding in Perl with Essential PragmataPro looks less weird  
(thanks to Albert Messiah!)
  - \* added the useful glyphs for VIM Powerline to all weights
  - \* backtick character (`) is included in all weights
- 

CHANGES FROM 0.810 TO 0.811  
edited by Fabrizio Schiavi 2012-10

- \* added useful glyphs to the Regular weight for VIM Powerline:  
U+2B60 Branch symbol  
U+2B61 LN (line) symbol  
U+2B62 FT symbol, part 1  
U+2B63 FT symbol, part 2  
U+2B64 Padlock (closed)  
U+2B80 Hard right arrow  
U+2B81 Soft right arrow  
U+2B82 Hard left arrow  
U+2B83 Soft left arrow
  - \* modified the design of grave (U+0060), now it's more readable at low size
- 

CHANGES FROM 0.800 TO 0.810  
edited by Fabrizio Schiavi 2012-06

- \* dashrockets  
->  
<-  
<=  
=====> 0%  
>=  
+=  
-=  
\*=  
+-----+-----+-----+  
are horizontally aligned
  - \* | | "bar" and "brokenbar" are now designed to be overlapped between two lines of text  
| | (useful for iTerm2, tmux 1.6., Terminal.app and others)
-
