

# Fox Sans TRF

A Geometric Sans Serif Typeface

Fox is a completely new typeface based on my previously designed Fox family font, which has been in distribution by T26 type foundry since 2001. Old Fox typeface design decisions were reconsidered in a way to improve legibility without sacrificing its originality. This new Fox family consists two subfamilies: Fox TRF and **Fox Sans TRF**.

**Fox Sans TRF**—geometric sans serif—includes six styles, in roman and italic, respectively. This subfamily’s lowercase letters have a genuine neo-grotesque shape construction without any decorative distractions.

Fox typeface is recommended for use as a display font, and has been generated in a single OpenType format with Western CP1252 character set.

Go take this old whisky to the blond judge who smokes. Tarpolin-up the taxi-railcar tail with the fakir's pajamas. See the giant brick which I examine near the wharf. Sylvia dares quickly the joke at Pforzheim. Franz chases in the completely shabby cab straight through Bavaria. Victor chases twelve boxers across the great dam.
