NOTE: All Parachute opentype font names come with the prefix "PF" (e.g. PF Fidelity Pro), a shortcut for "Parachute Fonts"

aboutparachute®

THE COOL, THE CLASSIC, THE ORIGINAL. Parachute® landed in 1999, but it wasn't till 2001 that it started operating as a full-scale type foundry. By then several designers had joined in to form a select group of open-minded, free-spirited individuals/friends. Graphic designers, illustrators, educators, typographers, with fresh ideas and a strong desire to design sophisticated typefaces which reflect current cultures and trends. Parachute® is based in Athens and is the major font supplier to most publishing houses and advertising agencies in Greece. It has built a strong network of valuable relationships with customers in Europe, United States, Canada and Australia, by providing custom font services and corporate font licensing. It's clientele includes multinational companies such as **Ikea, Vodafone, Nestle** and **Unilever**, advertising agencies such as **DDB, Leo Burnett, McCann Erickson, BBDO, Saatchi & Saatchi, TBWA, Lowe, JWT**, publications such as **National Geographic, Playboy, FHM, Elle, Vogue, Harper's Bazaar, Marie Claire, PC Magazine, Lucky, PC World, Votre Beauté** and many, many others. In the last 5 years Parachute's designers (a.k.a. Parachuters) have won three major typeface design awards, while their work has been featured and extensively presented in design-oriented magazines. The year 2003 marked the beginning of a new era for Parachute® with the release of a major 200-page catalog, which contained Greek and Latin typeface specimens. This catalog/book included several classic revivals of historical importance, as well as many original font designs. Since then an emphasis was placed on multilingual support and OpenType® technology. In the spring of 2004 Parachute's first opentype "Pro" font was released. **"Archive Pro"** an award winning typeface with multilingual support (over 1,350 glyphs/font), kerning for all European languages as well as advanced typographic features, was first presented at the **"Adobe Creative Days 2004"** forum, which was held in Athens, Greece. From then on, all Parachute® fonts have been redesigned to offer multilingual support, which includes major scripts such as Latin, Greek and Cyrillic.

opentype® and parachute® fonts

OpenType® is a new font format developed jointly by Adobe and Microsoft. This technology is becoming the new world standard for font development. There are three major advantages over older formats such as TrueType and Postscript: **1.** Cross-platform compatibility (a single file for both PC and Mac offering absolute compatibility between the two platforms) **2.** Multilingual support (multiple language character sets can be accessed from the same font). This is particularly useful to advertising agencies, publishing houses, multinational corporations and every other company small or large with accounts and products with an international flair. Most Parachute fonts come complete with a full range of characters to support all European languages **3.** Advanced layout features (an exciting function which provides access to advanced typographic features such as small caps, ligatures, oldstyle figures, swashes, etc). They enable the discriminating designer to set text professionally and add a touch of class to the page. Parachute openType fonts with advanced layout features and multilingual support are distinguished from the other "simple" openType fonts by the word "**Pro**" which is part of the font name. The advanced layout features cannot be accessed unless they are supported by your programs. Currently (early 2007), only InDesignCS, IllustratorCS, PhotoshopCS and QuarkXpress7 support these advanced features.

THE DESIGN OF PARACHUTE FONTS. Parachute fonts are designed by individuals who are familiar with Latin, Greek and Cyrillic. These are designers who have studied the particulars of each and every script in order to provide sophisticated, well-balanced, properly kerned and professionally designed typefaces in all different languages. Parachute online fonts are offered exclusively in OpenType format and they are released only after they have been thoroughly tested and reviewed.

How to type Multilingual text

It's never been easier to type or edit multilingual text. All you need is: **1.** a program which supports opentype fonts (see below), **2.** switch your keyboard to the languages you are interested in and **3.** use opentype fonts which support the specific languages (Parachute fonts support all European languages). Please note that if you only need to edit an existing multilingual text i.e. copy/paste or change fonts, you don't have to add or switch keyboards.

HOW TO SWITCH KEYBOARDS. First you add the new languages to the system. The steps are similar on both platforms **1.** On the PC (Windows XP) you go to the <control panel> section and choose <regional and languages options>. Select <languages> and follow the instructions to add the new languages (for earlier versions please refer to their manuals). Once added, you can switch between keyboards through the language bar that appears on the desktop or through a key sequence **2.** On the Mac (MacOSX) you go to <system preferences> and select <international>. Then you choose <input menu> and checkmark the languages you want to add. Once added, you can switch between keyboards through the language palette which appears on the desktop's menu bar or through a key sequence. Please visit Parachute's web site or click on the following link  to go directly to the <international keyboard layouts> support page. View them on screen or download for your reference.

ABOUT GREEK POLYTONIC. Add Greek Polytonic to the system by following above instructions. Once added, you need to know the key combinations for typing your text. Please visit Parachute's web site or click on the following link  to go directly to the <how to type Greek Polytonic support page>. View the typing instructions on screen or download for your reference.

MAJOR PROGRAMS THAT SUPPORT OPENTYPE. Currently (early 2007), the programs known to support OpenType are: InDesignCS, IllustratorCS, PhotoshopCS, Microsoft Office, CorelDraw and QuarkXpress 7.

SYSTEM REQUIREMENTS. Windows 2000 or later, MacOSX or later.

fontcredits

CHAMPION SCRIPT PRO. PF Champion Script Pro is the most advanced and powerful script ever made. This typeface was first presented in June 2007 at the 3rd International Conference on Typography and Visual Communication (ICTVC) and was met with rave reviews. It is based on the manuscripts of one of the great writing masters of the 18th century Joseph Champion*. There are many reasons that make PF Champion Script Pro so unique. Each one of the 2 weights is loaded with the amazing number of **4265 glyphs(!)**, offering simultaneous **support for all European languages** based on the Latin, Greek and Cyrillic scripts. Furthermore, a wide selection of alternate forms and ligatures is included for all languages, in order to accommodate diverse design aesthetics. These alternates are either applied automatically through an advanced programming scheme, or manually through several opentype features. An attempt was made to design a contemporary script typeface with classic roots, by following certain guidelines, i.e. lowercase characters were completely redesigned so they are less inclined, have a higher x-height and are less condensed than the original. Some characters were stripped-off their connecting lines in order to enhance legibility. A plethora of ornaments and frames (117) was included. All characters were carefully designed with the proper weight in order to sustain harsh printing conditions. Finally it was carefully and painstakingly programmed to preserve handwriting qualities.

PANOS VASSILIOU. Panos Vassiliou has conducted numerous seminars for leading Canadian companies and institutions such as Bank of Nova Scotia, Royal Bank and Sony Canada. He has organized and promoted several educational and cultural conferences. Two years after his graduation from the University of Toronto/Canada, where he studied Applied Science and Engineering, he pursued a teaching career at George Brown College/Toronto, first in the Information Systems Department and later in the Media & Graphic Arts Department. He has been Creative Director for the Canadian design firm AdHaus, former Publisher of the monthly magazine DNA (Greece) and Secretary-General for the Hellenic Canadian Congress (Ontario, Canada). He has been designing typefaces since 1993, including commercial fonts as well as commissions from **Vodafone, Nestlé, Ikea** and **National Geographic**. He is regularly invited as a guest speaker to conferences and seminars, to speak on typography and related topics. After moving to Greece, he started Parachute in 1999 setting the base for a typeface library that reflected the works of some of the best contemporary Greek designers, as well as creatives around the world obsessed with type. Some of his favorite designs include **Agora Pro, Square Sans Pro, Fuel Pro, Champion Script Pro**. He received a design award for his typeface **Archive** at the EBΓE AWARDS 2004. As early as spring 2004 he released **Archive Pro**, his first opentype font with special typographic features and multilingual support for all European languages including Greek and Cyrillic.

supported OT features

1. SMALL CAPS FROM CAPS: This feature formats uppercase text as small caps. These are not computer generated scaled-down versions of capitals, but rather glyphs which have been designed to match the weight and proportions of the rest of the family characters. **Their main function, in this particular typeface, is to replace the capitals within a sentence, in order not to disrupt the flow of text with their extravagant swashes.** (this feature includes Latin, Greek and Cyrillic small caps).

Dynasty ▶ *Dynasty*
Μεσοίγειος ▶ *Μεσοίγειος*
Музыка ▶ *Музыка*

2. LIGATURES: Replaces a sequence of glyphs with a single glyph, creating a professional-looking text with no peculiar collisions among letters. This feature covers the standard F-ligatures, as well as few other ones used in normal conditions.

ff ▶ *ff* *fj* ▶ *fj* *after* ▶ *after*
affluent ▶ *affluent* *affiliation* ▶ *affiliation*

3. DISCRETIONARY LIGATURES: Replaces a sequence of glyphs with a single glyph. It differs from the previous feature in the fact that it activates special (non-standard) ligatures for **Latin and Greek**.

c/o George Lewis ▶ *c^o George Lewis* (care of)
v/o Νίκος Νεφίδης ▶ *v^o Νίκος Νεφίδης* (υπόψιν)
a/a Νίκος Νεφίδης ▶ *a^a Νίκος Νεφίδης* (αυτ' αυτού)

4. SUPERIORS: Replaces figures with superior figures and lowercase letters with superior letters. These superior glyphs are not computer generated scaled-down versions but are rather redesigned to match the weight of the regular glyphs. Superior figures are used mainly for footnotes and superior letters for abbreviated titles (**this feature includes Latin as well as Greek superior lowercase letters**).

footnote3 ▶ *footnote³* *h2=x2+y2* ▶ *h²=x²+y²*
Dr ▶ *D^r* *Me* ▶ *M^e* *Dp* ▶ *D^p*

5. SCIENTIFIC INFERIORS: Replaces figures with inferior figures. They have been designed to match the weight of the regular glyphs and sit lower than the standard baseline. Used primarily for mathematical and chemical notations.

H2O ▶ *H₂O*

supported OT features

6. NUMERATORS: Substitutes selected numbers (and basic punctuation) which precede a slash with numerator glyphs and replaces the typographic slash with the fraction slash.

253/ ▶ *253/* *85,6/* ▶ *85,6/*

7. DENOMINATORS: Substitutes selected numbers (and basic punctuation) which follow a slash with denominator glyphs and replaces the typographic slash with the fraction slash.

/253 ▶ */253* */85,6* ▶ */85,6*

8. FRACTIONS: Figures separated by slash, are replaced with diagonal fractions.

5/8 ▶ *5/8* *3/4* ▶ *3/4*

9. ORDINALS: Contextually replaces default alphabetic glyphs which follow numbers with superscripted glyphs and the sequence 'No' with the numero character (No). **This feature includes Latin as well as Greek lowercase and capital ordinals.**

1st ▶ *1st* *2nd* ▶ *2nd* *28th* ▶ *28th*

1er ▶ *1^{er}* *2ème* ▶ *2^{ème}*

1os ▶ *1^{os}* *2n* ▶ *2ⁿ* *53ov* ▶ *53^{ov}*

10. ORNAMENTS/FRAMES: This feature may replace the bullet or other characters with any of the available ornaments/symbols. All of them are best accessed from the program's 'Glyphs Palette' when available. There is a total of **117 ornaments/frames** included with this font. From the most complicated to the simpler ones, it cannot get any better than this!!

11. DIPHTHONGS: Replaces a sequence of specific vowels like 'o' and 'e' or 'a' and 'e' with their corresponding diphthong which is used in certain languages. Access this feature from the glyph palette of all programs that support OT features. In languages like Danish the characters 'oe' and 'ae' are part of the alphabet and can be accessed directly from their corresponding keyboard. This is an almost obsolete feature which is included, anyhow, for all intents and purposes.

oe ▶ *œ* *Hors d'oeuvre* ▶ *Hors d'œuvre*

supported OT features

12. CONTEXTUAL ALTERNATES: Pre-programmed to automatically replace glyphs with alternate forms which sit better next to neighbouring letters. This feature takes into consideration a number of variables like the shape, the type and the frequency of neighbouring letters and is best to leave 'on' all the time. When you purchase Champion Script Pro, you get the "Attention to Details" guide which explains how to combine this feature and the other manual features for stunning results. Applied to Latin, Greek and Cyrillic.

13. CONTEXTUAL LIGATURES: Pre-programmed to automatically replace a sequence of glyphs with an alternate ligature form which sits better next to neighbouring letters. This feature is best to leave 'on' all the time. Applied to Latin, Greek and Cyrillic.

14. STYLISTIC ALTERNATES: Replaces non-standard glyphs with alternate forms purely for aesthetic reasons. This is a manual feature which is accessed through the glyphs palette.

15. TERMINAL FORMS: A set of stylistic variant glyphs which replace certain standard glyphs at the end of a word with alternate endings. This is a manual feature which is accessed through the glyphs palette.

16. INITIAL FORMS: A set of stylistic variant glyphs which replace certain standard glyphs at the beginning of a word with alternate initial forms. This is a manual feature which is accessed through the glyphs palette.

supported **OT** features

17. STYLISTIC SET 1: A set of stylistic variant glyphs which replace certain standard glyphs with alternate forms that are designed to work better within the text, or add a certain flair to the page. This feature includes 10 swashed alternate numbers which replace the standard numbers.

0123456789 ▶ 0123456789

18. STYLISTIC SET 2: This feature includes a large number of Greek polytonic alternates which replace the prosgegrammeni part of the glyph with ypogegrammeni.

Ση ▶ Σ̣η Ηη ▶ Η̣η Ξη ▶ Ξ̣η

19. STYLISTIC SET 3: A set of stylistic variant glyphs which replace capitals with alternate swashed and in many cases extravagant forms, that are designed to add a certain flair to the page. Stylistic sets 3/4/5 contain several different Latin, Greek and Cyrillic capitals with variant height, which increases as we go from set 3 to set 5. Finally set 6 contains only a few alternate capitals complementary to set 5.

S ▶ Ṣ M ▶ Ṃ V ▶ Ṿ

20. STYLISTIC SET 4: A set of stylistic variant glyphs which replace capitals with alternate swashed and in many cases extravagant forms, that are designed to add a certain flair to the page. Stylistic sets 3/4/5 contain several different Latin, Greek and Cyrillic capitals with variant height, which increases as we go from set 3 to set 5. Finally set 6 contains only a few alternate capitals complementary to set 5.

S ▶ Ṣ M ▶ Ṃ V ▶ Ṿ

21. STYLISTIC SET 5: A set of stylistic variant glyphs which replace capitals with alternate swashed and in many cases extravagant forms, that are designed to add a certain flair to the page. Stylistic sets 3/4/5 contain several different Latin, Greek and Cyrillic capitals with variant height, which increases as we go from set 3 to set 5. Finally set 6 contains only a few alternate capitals complementary to set 5.

S ▶ Ṣ M ▶ Ṃ V ▶ Ṿ

22. STYLISTIC SET 6: This set of stylistic variant glyphs contains only a few alternate capitals complementary to set 5.

S ▶ Ṣ C ▶ C̣ Y ▶ Ỵ

supported OT features

23. STYLISTIC SET 7: A set of stylistic variant small Caps glyphs which are used, within a sentence, to connect words which are separated by space, in order to create the effect of a continuous text flow. There are only a few alternate small Caps for Latin, Greek and Cyrillic. Stylistic set 7 contains alternate small Caps which connect words which end with lowercase letters like 'a', 'n', whereas stylistic set 8 contains alternate small Caps which connect words that end with lowercase letters like 'o', i.e. letters with no connections. **Note:** This effect is applied automatically when 'contextual alternates' is 'on'.

mG ▶ *mG* *aM* ▶ *aM* *nA* ▶ *nA*

24. STYLISTIC SET 8: A set of stylistic variant small Caps glyphs which are used, within a sentence, to connect words which are separated by space, in order to create the effect of a continuous text flow. There are only a few alternate small Caps for Latin, Greek and Cyrillic. Stylistic set 8 contains alternate small Caps which connect words that end with lowercase letters like 'o', i.e. letters with no connections. **Note:** This effect is applied automatically when 'contextual alternates' is 'on'.

oG ▶ *oG* *oA* ▶ *oA* *oA* ▶ *oA*

25. STYLISTIC SET 9: A set of stylistic variant ligatures which can be used to replace manually either combinations of standard glyphs, or ligatures which have already been generated by the 'ligatures' and 'contextual alternates' features. The stylistic set 9 is accessed through the glyphs palette.

affectionate ▶ *affectionate* *ερωδιαιου* ▶ *ερωδιαιου*
Сук.иет ▶ *Сук.иет*

26. SLASHED ZERO: Replaces the regular form of zero with an alternate form which includes a slash through the counter. This is particularly useful when capitals are mixed with numbers in which case capital O may be difficult to distinguish from zero 0.

0 ▶ 0 20 Objects ▶ 20 Objects

27. ACCESS ALL ALTERNATES: All variations of a selected character are accessible with this feature from the glyph palette of all programs that support OT features.

2 ▶ 2²₂ h ▶ h h h h

Regardless of whether the nations continue to remain isolated as far as the territorial aspect is concerned or they become more distributed, the electronic contiguity will reinforce the cultural link between them. During the few decades that television became widespread, some cultural codes were transmitted, even to nations where electronic means of communication were explicitly forbidden. The breakup of the Soviet Union may have been affected by this factor more than we would think possible. Television presented several products and services worldwide, making people consider them common, if not to respect them consistently. Moreover, television dramatically increased international communication. With 24-hours news broadcasts it has become increasingly difficult to disclose information from the public. Likewise, the Information Technology Marketplace will boost local and global cultures, as people coming from smaller villages and greater capitals will seek entertainment, commerce, education, health and other human activities together, regardless of their nationality. Could these forces equate the differences among us, resulting in an international civilization?

αστροφογία ενφράδια

Ποτέως αν τα έδνη παραμείνονν περιορισμένα από εδαφική άποψη ή γίνονν πιο διασκορπισμένα, η ψηφιακή γεινίαση, θα ενισχύσει τους ποζιτιβικούς δεσμούς ανάμεσά τους. Στις σίγες δεκαετίες που η ψηφίαση, διασκορπίσθηκε παντού, δέδωσε ορισμένους ποζιτιβικούς κανόνες, ακόμα και σε έδνη, όπου τα ψηφιακά μέσα, ενημέρωσης απαγορεύονταν κατηγορηματικά.

Η κατάρρευση της πρώην Σοβιετικής Ένωσης μπορεί να επηρεάσθηκε από αυτό τον παράγοντα περισσότερο απ' όσο νομίζουμε. Η ψηφίαση παρουσίασε ορισμένα προϊόντα και υπηρεσίες σε όφο τον κόσμο, δίνοντας τη δυνατότητα στους ανθρώπους να τα θεωρούν κοινά, αν όχι να τα σέβονται οάδερά. Επίσης, το μέσο αύξησε δραματικά την παγκόσμια επικοινωνία. Με τις επί εικοσιτετραίρων βάρσεως ειδήσεις γενικά ήταν όφο και πιο αδύνατο να αποκρυφτούν σημαντικά γεγονότα από τον πλόφοιτο πφανήτη. Παρομοίως, η ψηφιακή αγορά θα ασκήσει μια συνδυαστική και εξισωτική δύναμη στους τοπικούς και παγκόσμιους ποζιτιβισμούς, καθώς οι άνθρωποι από τα μικρότερα χωριά και τις μεγαλύτερες μητροπόλεις θα επιδιώκουν αναψυχή, εμπόριο, εκπαίδευση, υγεία και άλλες ανθρώπινες δραστηριότητες μαζί, άσχετα με την εθνικότητά τους.

Σχετίως ἂν τὰ ἔθνη παραμείνουν περιορισμένα ἀπὸ ἐδαφικῆς ἀπόψεως ἢ γί-
 νωνται πρὸ διασκορπισμένα, ἢ ἡλεκτρονικὴ γειτνίαση δὲ ἐνισχύσει τοὺς πομπιστικούς
 δεσμοὺς ἀνάμεσά τους. Ἐὖς ἦγες δεκαετίες πρὸ ἡ τειφείραση διασκορπίσθηκε
 παντοῦ, δέδωκε ὀρισμένους πομπιστικούς κανόνες, ἀκόμη καὶ σὲ ἔθνη ὅπου τὰ
 ἡλεκτρονικὰ μέσα ἐνημερώσεως ἀπαγορεύονταν κατηγορηματικά. Ἡ κατάρ-
 ρηση τῆς πρῶν Λοβιετικῆς Ἐνώσεως μπορεῖ νὰ ἐπηρεάσθηκε ἀπὸ αὐτὸν τὸν
 παράγοντα περισσότερο ἀπ' ὅσο νομίζομε. Ἡ τειφείραση παροσίασε ὀρισμένα
 προϊόντα καὶ ὑπηρεσίες σὲ ὅλο τὸν κόσμον, δίνοντας τὴν δυνατότητα ὁλοῖς ἀνθρώποις
 νὰ τὰ θεωροῦν κοινὰ, ἂν ὄχι νὰ τὰ σέβονται σλαδερὰ. Ἐπίσης, τὸ μέσον αὐξήσε
 δραματικὰ τὴν παγκόσμια ἐπικοινωνία. Ἄε τὺς ἐπὶ εἰκοσιτετραῖρον βάσεως
 εἰδήσεις γενικῶς ἦταν ὄλο καὶ πρὸ δύσκολο νὰ ἀποκρυφτοῦν σημαντικὰ γεγονότα
 ἀπὸ τὸν ὑπόλοιπο πφανήτη. Παρομοίως, ἡ πληροφοριακὴ ἀγορὰ δὲ ἀσκήσει μίαν
 συνδραστικὴν καὶ ἐξισωτικὴν δύναμιν ὁλοῖς τοπικοῖς καὶ παγκόσμιους πομπισμοῖς,
 καθὼς οἱ ἄνθρωποι ἀπὸ τὰ μικρότερα χωρὰ καὶ τὺς μεγαλῆτερες μητροπόλεις δὲ
 ἐπιδιώκουν ἀναψυχὴν, ἐμπόριο, ἐκπαίδευση, ὑγείαν καὶ ἄλλες ἀνθρώπινες δραστη-
 ριότητες μαζί, ἀσχετίως μὲ τὴν ἐθνικότητά τους.

cyrillicsamples

Сократ родился в Греции, в городе Афинах. Отец Сократа был
 рабочий, каменотес, а мать повивальная бабка. От этого-то
 Сократ и говорил часто, что мать его была бабушка - помогала
 людям родиться, и он то же делает, только помогает не людям, а
 мыслям людей родиться. Отец Сократа учил его своему масте-
 рству, посылал и в училище учиться грамоте и другим наукам.
 В Афинах все были грамотные, и было много разных училищ.
 Были самые бедные училища, где дети учились на дворе и буквы
 выводились палочками на песке. Были училища побогаче, где
 учились грамоте, черчению, счету и читали стихи. Были учи-
 лища и самые высокие, где ученики бодулись всею толпою, что
 знали в то время греки. Сократ был с молодости понятлив и охот до
 учения, и отец отдал его в высшее училище. Увыучился Сократ
 в училище всеи наукам и прочел сочинения всех лучших греческих пи-
 сателей. Кончил Сократ науку и вернулся к отцу и опять
 стал работать своим ремеслом, камнями тесать.

how to create stunning documents

PF Champion Script Pro is the most advanced and powerful script ever made. This typeface will amaze you with what it can do to your documents. It makes full use of its opentype features and surprisingly enough is easy to use. In fact you can create stunning documents in minutes and in 2 easy steps.

When you purchase PF Champion Script Pro you get the 'Attention to Details' guide. This is an additional 10-page document which contains all the information you need to set up your documents. in fact this is the only guide you need to start working in minutes.

Attention to Details.

acknowledgments

TYPEFACES. The typeface used in this specimen manual for body text, headers, footers and page numbering is PF Square Sans Pro. PF Bulletin Sans Pro is used for page titles.

PRODUCTION. This manual was produced using InDesign®CS2, Illustrator®CS2 and Photoshop®CS2 from Adobe® and Word®2004 from Microsoft®. Multilingual sample text was originally set in Microsoft Word for Windows. Final document was created in MacOSX with InDesign®CS2.

TEXT. The main text used for samples, has been adapted and translated by permission from the book "What will be" by the late MIT Professor and visionary Michael Dertouzos, published in 1997 by HarperEdge. Greek version published in 1998 by Livani Publishing Organization. Russian text on Socrates, by Leo Tolstoy. Additional text and samples were derived from the 200-page catalog/book "IDEA-Trendsetting Typography vol. 1" released by Parachute in the year 2003.

Special thanks to George Lygas and Sophia Kalaentzidou for their valuable assistance during the development of this project.
