BANK GOTHIC

IF THERE WAS AN AMERICAN TYPEFACE HALL OF FAME, Bank Gothic, designed by the great Morris Fuller Benton would hold a place of special distinction considering this design has survived so many trends in typographic fashion since being introduced in 1930. It's just as desirable today as it was over eighty years ago; arguably more. Today, Bank Gothic is a very popular choice as a titling face for science fiction books, posters and countless television and movie titles. It is also a popular typeface for use in computer games and digital graphics.

FontHaus has been marketing a digital revival of the original Bank Gothic design since the mid-1990s. Despite wide appeal, its limitation was family size and character set. In 1934, Bank Gothic was only available as an all-caps family with very limited punctuation. There were three weights and two styles (regular and condensed) available.

UPDATING A CLASSIC

FontHaus HAS ALWAYS HELD THE BELIEF that one day it would take on the challenge of building-out this family, complete with an all-new lowercase, a compliment of small caps and an updated suite of punctuation necessary for 21st century typography.

Much of this challenge was trying to imagine how Morris Fuller Benton would design a lowercase. It was important to stay true to the design, the period and Benton's aesthetic. FontHaus worked with some of the most talented and experienced type designers that were historically grounded and sensitive to this design project. Fortunately, Mr. Benton has left us a large selection of other great typefaces for insight and guidance.

After what seemed like over a decade of planning and months of development, FontHaus is proud to present its all-new Bank Gothic family. It consists of Light, Medium and Bold weights in both a regular and a condensed style. Each font has over 320 glyphs including caps, small caps, lowercase, alternate numbers and punctuation.

FontHaus believes it has released the most updated and authentic revival of Bank Gothic in the industry; suitable for headlines, text, print or screen. It is a strong typeface; highly readable, distinctive, versatile, fresh and relevant.

FontHaus adopted Raleigh Gothic Condensed for its logo, designed in 1990 and later commissioned the creation of a lowercase, small caps, alternates, special characters and a full set of punctuation glyphs. Raleigh Gothic was also designed by Morris Fuller Benton and released by American Type Founders Company in 1932.

Bank Gothic and Raleigh Gothic Condensed are trademarks of Grosse Pointe Group, LLC. FontHaus and the FontHaus logo are trademarks of DsgnHaus Inc.
